

MATEUSZ MOSÓR

FACILITY MANAGEMENT GRADUATE | DATA SCIENCE & AI SPECIALIZATION

mosorm@gmail.com | +31 640 554 370 | Breda, Netherlands | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Final-year Facility Management student specializing in Data Science & AI with 6+ years of hands-on logistics and finance experience across international settings. Built production-ready ML applications, automated financial reporting at Avolta (Helsinki), and managed warehouse operations for teams of 50–100 at Jumbo. Combining operational know-how with Python, Alteryx, and Power BI to deliver data-driven solutions.

EXPERIENCE

FINANCE DEPARTMENT INTERN

Avolta · Helsinki, Finland

February 2024 – August 2024

- Prepared detailed weekly financial and KPI reports to support management decisions
- Conducted in-depth passenger (PAX) data analysis comparing forecasted vs actual figures to optimize scheduling
- Ensured accuracy of financial records through transaction reconciliation and discrepancy resolution
- Improved and automated Excel templates, increasing efficiency in financial data management
- Developed comprehensive onboarding documentation for new employees and interns

ALL-ROUND LOGISTICS EMPLOYEE / BALIEMEDEWERKER

Jumbo Supermarkten · Breda, Netherlands

November 2020 – Present

- Managed task allocation for teams of 50–100 employees to maintain workflow and productivity
- Oversaw office inventory, maintained documentation, and organized warehouse records
- Analyzed and reported operational data to support management decision-making
- Utilized Warehouse Management System (WMS) to track workload and streamline logistics operations

REACH TRUCK OPERATOR / ORDERPICKER

Jumbo Supermarkten (via Otto Work Force) · Breda, Netherlands

April 2016 – November 2020

- Operated reach trucks to move and organize warehouse inventory across distribution centre
- Performed order picking ensuring accurate and timely processing of client orders
- Trained new employees in picking procedures and safe reach truck operation

LOGISTICS EMPLOYEE

KODANO S.A. · Kraków, Poland

January 2017 – June 2017

- Managed cross-border restocking operations in cooperation with Hungarian branch
- Handled order picking, parcel preparation, and international shipment coordination

KEY PROJECTS

INTELLIGENT OCCUPANCY DETECTION

Python, Streamlit, XGBoost, Plotly

Production-ready ML application predicting room occupancy from sensor data. Built a Champion vs. Challenger MLOps framework with automated pipeline for cleaning, feature engineering, and serialization.

NUCLEAR ENERGY SDG DASHBOARD

Power BI, DAX, Excel

Data analysis into the correlation between nuclear energy adoption and carbon intensity in Europe. Discovered a moderate negative correlation (-0.40) between nuclear shares and carbon intensity.

DKG LOGISTICS OPTIMIZATION

Python, Heuristic Algorithms

Client project for DKG Keukens: optimized truck loading for mixed cargo. Developed a front-end 3D packing visualization with an Ethical Operations Framework for safety compliance.

EDUCATION

BACHELOR OF APPLIED SCIENCE – FACILITY MANAGEMENT

Breda University of Applied Sciences · Breda, Netherlands

September 2022 – June 2026

Specialization: Data Science & AI. Intensive minor covering machine learning, data engineering, and AI applications.

ECONOMIST TECHNICIAN

Zespół Szkół Ekonomicznych Nr 2 · Kraków, Poland

September 2010 – June 2014

SKILLS & CERTIFICATIONS

Data & Analytics: Python, SQL, Alteryx, Power BI, Tableau, DAX, Excel

ML & Visualization: XGBoost, Streamlit, Plotly, Scikit-learn

Operations: WMS, Git, Process Optimization, Lean Six Sigma (Yellow Belt)

Languages: Polish (Native) | English (Professional Working) | Dutch (Elementary)

Certifications: Lean Six Sigma Yellow Belt | Microsoft Office Specialist: Excel | Alteryx Designer Core & ML Fundamentals | Tableau Essential Training | Career Skills in Data Analytics | Principles of Sustainable Development
